

## **CDK COMMERCIAL CONSTRUCTION PTY LTD**

### **ENVIRONMENTAL POLICY**

CDK Commercial Construction Pty Ltd recognises the impact of building activities on the environment and has implemented an Environmental Management System that addresses these issues and undertakes to:

- Promote environmental awareness and improve work practices
- Comply with all environmental regulation, legislation and codes of practice
- Identify environmental risks and implement control measures
- Minimize waste and pollution generated from building sites
- Avoid exposure of employees and general public to environmental health hazards
- Seek to influence better environmental design outcomes

CDK Commercial Construction Pty Ltd believes that promoting an environmentally aware culture and best practice within its organisation and on all projects will benefit the community and company.
